Oil - tax it to death / Chinese exaggeration / Our leaders are our problem

Oil - tax it to death

The analysis of rig counts is interesting insofar as OPEC has not sought to manipulate the market ...

http://seekingalpha.com/article/3209216-oil-we-are-approaching-equilibrium?source=email_macro_view_com_4_16&ifp=0

Let's face the facts. Without using fossil fuels there can be no green energy industry. So what do our ignorant leaders do? They want to tax them to death...

<http://www.telegraph.co.uk/finance/economics/11633745/Fossil-industry-faces-a-perfect-political-and-technological-storm.html>

Chinese exaggeration

Of all the countries in the world, China's stats are the most over-stated...China prints more money than any other country and double counts both exports and imports. So IMHO China's GDP is grossly over-stated...and debt is under-stated...

http://seekingalpha.com/article/3209106-the-riddle-behind-chinas-export-import-numbers?source=email_macro_view_edipic_0_0&ifp=0

Sabre rattling...

<http://www.telegraph.co.uk/news/worldnews/asia/china/11630185/US-China-war-inevitable-unless-Washington-drops-demands-over-South-China-Sea.html>

Our leaders are our problem

Typically US writers think the US economy is everything...

<http://www.dailyimpact.net/2015/05/26/the-crash-of-2015-going-global/>

Have we hit the end of the best of times and are turning towards the worst of times...or is that too pessimistic?
