

Overturning plans for an evil New World Order

By Robert David Steele, American Herald Tribune, November 2017

The Zionists are dancing again. [1] They think they have captured the President of the United States of America [2] – he appears to be their “shiksa” [3] – while accelerating the arming of Saudi Arabia with nuclear weapons [4] and reinforcing the Kurds to the point that the Kurds are now certain of their independence. [5] When Kurdistan is a completely autonomous state, with or without a nuclear exchange between Saudi Arabia and Iran –Israel will have done to Iran and Iraq and Turkey what it has done to Syria in the Golan Heights, via proxy. It will also control, via proxy, 20% of the oil sourced to the Middle East, while sending another 40 million refugees into Europe, as facilitated by the Barcelona Declaration in 1995. [6]

The Khazarian Mafia – the financial crime families that have captured all governments through a combination of central banking control and the subversion of the leading political parties that shut out 70% of their own voters to give the 1% control over every Western government from Australia to Canada to Europe to the UK and USA – is not dancing. The Western financial system is within weeks of a major collapse as all of the bubbles pop at once. [7] Perhaps even more significant, in the aftermath of the total destruction of Harvey Weinstein, the Jewish mafia in the USA is finished, “Jewish privilege is now history,” [8] and the larger US purge can begin, perhaps starting with dual-citizen Zionists holding Top Secret clearances and now employed by the Departments of State and Defense, and the US secret intelligence services. On a positive note, a global financial re-set appears pre-planned and ready to be rolled out.

I do not believe Israel – a fabricated [9] heavily-subsidized [10] state completely lacking in ethics at the top [11] – can win World War III (WWIII), provided we all agree on some central possibilities for peace. Both the Zionists (not to be confused with peace-loving Jewish citizens of all countries) and the Khazarian Mafia are on the verge of being destroyed....the death of the Deep State is possible between now and 2020. [12]

Do not under-estimate the independence, will, or unpredictability of President Donald Trump. To this I would add, do not under-estimate the intelligence and integrity of President Donald Trump, President Vladimir Putin, and General Secretary Xi Jinping.

I believe it is possible to help the legitimately-elected President of the United States of America (USA) put down the Deep State and purge the Zionist forces now corrupting all US institutions, but in order to do this, to stop the treasonous assault on all of us, and to assure peace and prosperity for all in our time, the BRICS+ as well as, ideally, the African Union, the Association of South East Asian Nations (ASEAN), the European Union (EU), the Nordic Council, and the Union of South American Nations (UNASUR) should embrace seven possibilities.

1. Central Banks must be nationalized. Governments have not done this to date because the Deep State has bribed, blackmailed, and manipulated the elected leaders in charge of keeping the public quiet. Election reform [13] combined with Presidential pardons for all who give up their Zionist and secret intelligence blackmailers will liberate governments from external powers. [14] A debt jubilee and the end of absentee landlords would be good for all. Land should be a community asset and not for sale to outsiders. Central banks fronting for the

Khazarian Mafia are the primary antagonists who promote war as a profit center on the one hand, and loot public treasuries and national economies with impunity on the other. [15]

2. The US public is the center of gravity for world peace – and wants world peace. Donald Trump knows this and is on record as saying that world peace “would be the best deal.” [16]

A post-Google Internet [17] with four elements is absolutely essential if the US public is to be empowered to do what it actually wants: achieve peace abroad and prosperity for the 99% at home: [18]

- Cyber-Value – encrypted means of storing and sharing value of all kinds inclusive of location, labor hours, and subject matter expertise
- Cyber-Voice – encrypted means for individuals to vote and exchange views without censorship at all levels from local to global
- Cyber-Tools – encrypted and integrated set of analytic decision-support tools for multi-media, multi-lingual data ingestion and exploitation [19]
- Cyber-Intelligence – encrypted truthful information that cannot be censored or manipulated, relevant to all threats, policies, and costs. [20]

3. The Deep State (Khazarian Mafia and Zionists) – not Cuba, not Iran, not Libya, not North Korea, and certainly not Russia, are the enemy. The US public is increasingly realizing what foreign publics have known for a very long time: it is the Deep State that treats war as a profit center, and the Khazarian Mafia as well as the Zionists (leveraging the Freemasons and the Knights of Malta and the US secret intelligence services) that bribe, blackmail, and manipulate Members of the US Congress that are in the aggregate the root cause of misery, war, and waste around the globe. [21] The time has come to help the US public understand what has been done in its name and at its expense, including the theft of \$21 trillion dollars from the US public by the Deep State, [22] and the “Gold War” on Russia from 1998 to 2001. [23]

4. Restructuring the Middle East appears central to achieving peace in our time. Central to the achievement of peace in the Middle East, in my view, is the need to eliminate the role of the USA as subsidizer of both Arab despots and Zionist fanatics. Equally central is the need to stop the devastation occurring across the region at the hands of Saudi Arabia (Syria, Yemen) and Israel (Syria, Palestine, the planned Kurdish invasion of Iran and Iraq). As long as a majority of the US public does not understand that the US, Saudi Arabia, and Israel created the Islamic State of Iraq and Syria (ISIS), the necessary momentum in favor of truth is not being achieved. [24]

5. We must stop wasting resources on organizations such as the United Nations. In combination with a post-Google Internet, it is now possible for local communities to achieve infinite wealth and perpetual peace through the application of Holistic Analytics, True Cost Economics, and Open Source Everything Engineering (OSEE), while avoiding the charity fraud and waste associated with most if not all non-governmental organizations – on the order of 80-90%. Micro-cash delivered to the village level, plus OSEE, equals infinite wealth at the local level [25] -- and it keeps all those illegal immigrants home, as long as we disenfranchise dictators.

6. An Open Source Agency (OSA) funded at \$2 billion a year in one location, and related OSAs supporting each continental power grouping, is how we achieve global peace and prosperity within a decade. [26] It has been clearly established that infinite wealth (and consequently perpetual peace) is achievable for the 99% now abused by the 1%, at 10% of the cost of the existing Western paradigm that is 50% waste and 90% profit for the 1%. [27] Free energy and unlimited desalinated water is a starting point relevant to Somalia, Yemen, and so many other zones of conflict.

7. Donald Trump is the ultimate Wild Card. I have not given up on Donald Trump, and neither should all foreign leaders capable of engaging him. From the list price of Boeing aircraft to the inherent evil of the United Nations Educational, Scientific, and Cultural Organization (UNESCO), [29] Donald Trump's instincts are much more in alignment with those of Iran than most people realize. The Zionists manipulated the USA into supporting a chemical war between Iraq and Iran and are now trying to manipulate the USA into supporting a nuclear war between Saudi Arabia and Iran. This insanity can be stopped but only by recognizing that the US public is "ground zero" and Donald Trump is potentially the key player in putting a stake into the heart of the Deep State and rampant Zionism as well as other weaponized religions or religious sects.[28]

The End Game

The Zionists have recently over-played their hand in the USA and the way is open for a purge of all Zionists from all key positions, not only in the US Government (USG) but across the banking, commercial, educational, and entertainment sectors as well.

In combination the Las Vegas atrocities (a false flag terrorist event combining the actors and methods of 9/11 with the false narrative of the John F. Kennedy (JFK) assassination) [30] and recent proposed legislation seeking to make it a felony – the most serious crime in America with onerous long prison terms – to criticize Israel and speak openly of boycotting Israel [31] – have opened the Zionists in the USA to such a purge.

The attempts to force President Trump to invade Syria, give Saudi Arabia nuclear arms to use against Iran, and launch a pre-emptive attack on North Korea all appear to have back-fired. If President Trump was resistant to the fact of the evil within our ranks being Zionist in nature, Las Vegas in all probability spelled the death of Benjamin Netanyahu's influence within the USA and over President Donald Trump. A Trump-Kim Summit backed discreetly by Xi and Putin will seal the deal – the Great Powers are closing the Khazarians down and putting the Zionists back into a very small box.

It would be most helpful if the leaders of the peer competitors of the USA were to recognize that this war must be won in the hearts and minds of US citizens, not with propaganda, but with the truth that shall make us all free from Satanic forces (John 8:32).

The Open Source Way is the way of clarity, diversity, integrity, and sustainability. By arming US citizens first, and then all citizens, with the truth – including the truth about the depravities and true costs of the Western socio-economic paradigm that destroys communities, families, and societies, we open a path toward truth and reconciliation, toward shared peace and prosperity in which happiness, imagination, and a grasp of the infinite yield a oneness with

God and the Cosmos in which corruption and crime, perversions, war and waste, have no place.
[32]

Donald Trump is the Wild Card. Wild Cards can take many forms. Donald Trump is at a fork in the road – he can continue to tolerate the Deep State, or he can destroy the Deep State. I pray that God gives him the light to be right with his family, his country, and the Cosmic Forces within which humanity is a grand experiment in consciousness, faith, and integrity.

Endnotes

[1] This is a reference to “the five dancing Israelis” believed to be a Mossad camera crew. Thirteen countries warned the US intelligence community in advance of 9/11. Rather than preventing it, Vice President Dick Cheney took it over. He declared a national counter-terrorism exercise months in advance and then appears to have orchestrated all aspects of the attack. Israel planned 9/11, Saudi Arabia provided logistics support for the patsies; and Dick Cheney, without the knowledge of a majority of the US Government (USG), made it happen. Besides the original Families of 9/11, no one has done more than Architects & Engineers for 9/11; one other summary of what we know and what we do not know is provided by Mini-Me, “9/11 Convergence 14th Anniversary — 13 Warnings, Dick Cheney Made It Happen....” *Phi Beta Iota Public Intelligence Blog*, 11 March 2014, and more generally 9/11 @ Phi Beta Iota.

[3] This is a deeply offensive term to anyone who understands the Zionist/Orthodox Jewish Male mindset. It means a gentile girl, the equivalent of a whore, who “does not count” and to whom despicable things can be done that would never be done to a Jewish woman. The author prays for Donald Trump’s soul and hopes that Donald Trump is in fact buying time within which to purge the USA of the Zionist traitors embedded at every level from local to national, but each passing day diminishes the prospects of Donald Trump living up to his campaign promises.

[5] Direct reports from Kurds on the ground to my sources in Europe all confirm that the Kurds are armed, organized, and ready to enter Iran, Iraq, and Turkey in force, with in-depth support from Israel and perhaps from the USA via official channels, or as is more often the case, rogue channels that leverage the US military – and Eastern European arms suppliers – without revealing the end-user being supported.

[6] The Barcelona Declaration is a very well-developed document that makes perfect sense. It has been interpreted by some to have been a virtual secret agreement – in return for massive bribes to the leaders of the fifteen European countries signing the declaration – to accept an

unlimited number of illegal Muslim refugees from the Middle East. Cf. Brit Girl, “The fate of Europe was decided long ago...,” *YouTube* (7:16), 9 August 2017; and Dansk Kultur, “Free Muslim Immigration to Europe 1,” *Balder.org*, and Anders Brunn Laursen, “The Greatest Act of Treason in History,” *Balder.org*, both undated, both dated generally December 2009, accessed 16 October 2017.

[7] There are three distinct narratives bearing on the imminent collapse of the Western economic and financial system – that of the Western mainstream media; that of the Western alternative media; and that of the Chinese and Russian sources generally not readily available to readers in the West. Just four of many sources are offered here by way of overview: Kenneth Rapoza, “Russia Wants To Convince BRIC Partners To Create Alternative Banking System,” *Forbes*, 1 June 2015; Editorial Staff, “Eight signs a global market crash is imminent as central banks lose control,” *Financial Post*, 18 August 2015; Peter Koenig, “Brewing Collapse of the Western Monetary System? German Government Warns of an Upcoming Catastrophe, Tags Russia as an “Enemy Nation,”” *GlobalResearch.org*, 23 August 2016; Martin Armstrong, “Why 2017 is The Threshold to Chaos,” *ArmstrongEconomics.com*, 7 September 2016. While it has been known for some time that the BRICS (Brazil, Russia, India, China, South Africa) have been devising an alternative economic system including the abandonment of the US dollar as the global reserve currency, and an alternative exchange system to SWIFT (which is totally owned by NSA), the BRICS have failed to advance the necessary post-Western alternative information and open source engineering alternatives essential to achieving a non-violent transition from a system dominated by the 1% to a system elevating the 99% at 10% of the cost of the failed Western paradigm.

Since this is a subscription access publication, the following from “below the line” are offered for a sense of the extraordinary information not visible to those without a subscription:

“According to senior Pentagon and Asian Secret Society sources a decision to establish a de facto World government is also being negotiated at the highest levels. This would not be the Khazarian plan for a totalitarian New World Order controlled by Khazarian gangsters. Instead, it would involve democratically revamping the existing international architecture so that real world peace and prosperity would be possible for the first time in human history. . . .

“The public accusations against Harvey Weinstein have “opened the door, not just for women to come forward, but also men and children who were groped, raped, or molested in pedowood,” they continue. In other words, the purge of Hollywood has only just begun. . . .

“[The door has opened for] a total reset of the (world) economic system, accompanied by a jubilee—a one-time write-off of debts and redistribution of assets—to fix this situation.”

[12] The best focused work to date is Peter Dale Scott, *The American Deep State: Big Money, Big Oil, and the Struggle for U.S. Democracy* (Rowman & Littlefield), 2017) but too many still confuse the permanent political class and unelected bureaucrats as the “deep state” or “shadow government.” That is not correct. These two classes of people are the best of the servant class and not part of the 1%. The 1% starts with the Khazarian Mafia and its Vatican counterparts, goes down to the City of London and Wall Street and out to the Central Banks. The Freemasons, Knights of Malta, and other secret societies are used as “facilitators” to leverage government and corporate assets in betrayal of their country or corporation and in favor of the Deep State – hence legitimate military bases and aircraft can be used to smuggle drugs, guns, cash, gold, and small children under pretext and cover.

[13] Most national discussions of election reform are controlled and limited. The most holistic and comprehensive approach to election reform, with twelve distinct areas for restoring integrity, is that of #UNRIG, led by the author and Cynthia McKinney. Learn more at <http://unrig.net>.

[14] This is a vital counterintelligence observation. It is not sufficient to free incumbent politicians from the pressures of financial bribery – they are also controlled by blackmail. To fully free them demands both a national-level pardon for whatever they are being blackmailed about (very often, contrived pedophilia and child murder on video) and a separate presidential level task force to take down the testimony, prepare the action briefs (specific individuals to be charged with the crime of blackmail), and then secure the testimony to avoid its being leaked. A truth and reconciliation approach gives the elite an exit strategy, and enables the identification and eradication of those who have been blackmailing legislators and selected senior executive and flag officers, “the best of the servant class.”

Major voices have been “digitally assassinated” with entire body of works deleted because Google or YouTube or Facebook or Twitter elements of the national censorship board have decided that such views – regardless of the First Amendment and the right of free speech, are “inappropriate.
