

Khazarian Jewish Mafia's New World Order is failing

By Sajjad Shaukat, 20 October 2019

First of all, it is clarified that many Jewish writers have objected that a number of writers and authors confuse the term Khazarian Mafia by amalgamating it with the Jews. But, fact remains that in context of the modern history, collective interests and present phenomena of the world, it is much difficult to differentiate between these two entities.

We should know that by ignoring their strong alignment, still, a majority of the writers, bloggers and authors use the term Khazarian Mafia instead of Khazarian Jewish Mafia. Wikipedia points out that the Khazarian king Bulan (Khazar) had chosen Judaism as the religion of the Khazarians. So, as regards the earlier history, we can use the term Khazarian Mafia. But, now, we should use the term Khazarian Jewish Mafia (KJM).

However, visibly or invisibly, many big cartels of the world are owned by the KJM. By controlling the major multinational corporations, arms factories, five star hotels, oil companies, liquor business, food industries, technologies, mining and mineral resources, banks, film industry, print and electronic media in the US in particular and the world in general—having influence on the UNO, financial institutes like World Bank and IMF, Khazarian Jewish Mafia (KJM) has converted the world into a corporate industry, which manly work for the interests of the Mafia.

When we talk about the control of the United States and the world, there is no difference between the Khazarian Mafia, Jews and Israel. In this regard, many intellectuals like Don Allen and others reveal, “The Council on Foreign Relations (CFR)...was part of a conspiracy to gain control of both US political parties to use them as instruments...seventy-three percent of the members of the Council on Foreign Relations are Jews. There are a number of organizations that comprise the Invisible Government that runs America and the world...from behind the scenes. A Jewish group which is in control of national governments and multinational corporations promotes world government through control of the military, media, foundation grants and education including NGOs...and controls and guides the issues of the day, and thus they control most options available. They will manage the money, the land, the food, and the guns of everyone in the world.”

In the words of Congresswoman Cynthia McKinney, “It is long been clear that the pro-Israel, ultra-Zionist network have absolute control over the United States. The idea that our leaders are pursuing America's vital national interests abroad...is a myth.”

Nevertheless, it is most surprising to note that especially since the orchestrated drama of the 9/11 attacks on the one side, Khazarian Jewish Mafia has been acting upon its evil designs by targeting the non-Zionist Americans and entire international community, while, on the other,

it is, rapidly, jeopardizing its financial interests by destabilizing the global economy, which shows cognitive dissonance of the Mafia.

It is notable that after the disintegration of the Soviet Union, in consultation with his Zionist-advisers and neoconservatives, American former President Bush (The Senior) introduced the New World Order (NWO), with the US acting as a global policeman to protect the political and economic interests of Israel and the American Jews. The Third World (Islamic World) was compelled to realign their domestic policies according to Washington's dictates. In this respect, UNO, IMF and World Bank were also used as the KJM agents. In order to obtain the hidden agenda of the Khazarian Jewish Mafia, the US imposed its sudden terms of globalization such as quick liberalization of economy, free markets, privatization and de-nationalization etc. on the ill-prepared less developed countries, which resulted into foreign-based dominance of the MNCs which easily defeated the host states' economic plan and monetary policy—left behind shattered nations and a global financial crisis. It further widened the gap between the poor and the rich countries (Or G-7).

In this context, Professor Timothy Gorringer in his book, "Fair Shares: Ethics and the Global Economy", writes "Globalization...trade is largely controlled by a small number of huge corporations...disintegration of communities and its replacement by the market...has the potential of destroying society."

It is mentionable that the US and other developed countries produce 'surplus' which is being exported to the less developed countries, including the Islamic countries. Latest machines produce products quickly, and rapid means of communication and correspondence through internet or email have accelerated the business transactions. But, in the present world, terrorism is being manipulated by the KJM, while, at the same time, they are damaging their monetary interests by following conflicting strategies.

In the recent years, during the meetings of IMF, World Bank and World Trade Organization; violent protests were seen by the anti-globalists who were Western nationals. Surprisingly, despite its failure, KJM continued to drive the project of globalization without bothering for its negative impact which is harming monetary interests of the Mafia.

In political terms, America's child-killing sanctions against Iraq and Iran; late action to curb ethnic cleansing in Kosovo, support to Israel's aggressive occupation of the West Bank and Gaza, with vetoing any effective action by the UN to curb the Israeli state terrorism greatly annoyed the Muslims all over the world. Similarly, this mafia continued to back Indian state terrorism in the Indian Occupied Kashmir.

When President George W. Bush became the US president, he and the neo-conservatives crossed all the limits in securing the political, economic and religious interests of the Jews and Israel at the cost of Muslims and patriot Americans. Under the mask of the 9/11 catastrophe,

their preplanned strategy led by KJM headed towards dangerous moves like employment of power-diplomacy on the weak states like Pakistan and other Muslim countries, including almost all the Arab states which joined Bush's phony anti-terrorism war, while American President Barrack also followed similar flawed policies to safeguard the illegitimate interests of Israel and the KJM.

Obama and Bush deliberately created chaos in the Muslim World. In this connection, occupation of Afghanistan (Prolonged war) and Iraq, proxy wars in the Middle East, regime change in Libya and Egypt through unrest, support to Al-Qaeda (Al-Nusra Front) and Islamic State group (Also known as ISIS, ISIL and Daesh) by American CIA-Israeli Mossad in Syria and Iraq, promotion of sectarian violence in the Islamic World on the basis of Shia and Sunni have given a greater blow to the world's economic stability which is essential for Khazarian Jewish Mafia.

When in September 2015, Russian-led coalition of Iran, Iraq, the Syrian army-the National Defense Forces (NDF) and Lebanon-based Hezbollah started breaking the backbone of the terrorists of ISIS, Al-Qaeda's Al-Nusra Front and the rebels in Syria and Iraq, Mossad which was already having clandestine contact with the ISIS directed this outfit to plan the November 13 (2015) terror attacks in Paris in connivance with the French home-grown militants. Similarly, when Russian-led forces began retaking many cities from the control of these insurgents, on the other side, agents of Mossad who were in collaboration with the CIA sympathizers and the ISIL militants arranged various sorts of terror attacks in Europe and the US.

Through all these false flag terror operations, the US and Israel wanted to obtain the covert aims of the KJM against Russia, the Muslims and the patriot Americans. Mossad had also provided the pro-Israeli US President Donald Trump with an opportunity to manipulate various terror assaults of Europe and America to win the US presidential election and to reunite America and Europe, as a rift was created between America and its Western allies, especially Europe on a number of issues, including NATO and trade. And President Trump had left no stone unturned in implementing anti-Muslim policies, while speaking openly against the Muslims and Syrian immigrants. Trump had started exaggerating the threat of Islamophobia, while, some incidents were not linked to ISIS, but were the result of self-radicalization of the individuals.

After becoming the US President, Donald Trump started acting upon the hidden agenda of Israel and the Khazarian Jewish Mafia. His decisions such as tough screening process for the Muslims and executive order regarding a ban on arrivals to the US from a number of mainly-Muslim countries might be cited as instance.

President Trump's connections with Israel and KJM were undoubtedly proved when Trump Administration announced the opening of the US Embassy in Jerusalem on May 14, 2018. President Trump implemented his decision of December 6, 2018 by officially recognizing Jerusalem as the capital of Israel, and reversed nearly seven decades of American foreign policy and set in motion a plan to move the United States Embassy from Tel Aviv to the fiercely contested Holy City.

Khazarian Jewish Mafia forgot that angry elements within the Muslim countries, particularly in the pro-Arab states may react against America and its interests in the form of terrorism and other violent actions. Unquestionably, the US president's move on Jerusalem have created new risks for Washington, as the decision offered extremist groups a valuable opportunity to capitalise on anti-US sentiment and direct such anger towards those Arab countries which are close to America and non-confrontational towards Israel. While, the world is already witnessing various kinds of terrorism-related assaults, acceleration of terror-attacks would further destabilize the world by giving a greater setback to the political and economic interests of the KJM.

Besides, it was owing to the encouragement of the President Trump that the Israeli regime officially declared their status as "the Jewish State" where only Jewish people have rights to self-determination.

Meanwhile, in the recent years, various developments such as reluctance of NATO countries to support America's fake global war on terror, acceptance of Syrian refugees by the European countries, especially Germany, criticism of the controversial Turkish-EU refugee deal by a number of human rights groups, the EU rule to boycott goods produced in Israeli settlements on the West Bank, Britain's decision to leave the European Union (EU), after the referendum (Brexit) on June 24, 2016—British Prime Minister Boris Johnson struck a new Brexit agreement with the European Union on October 17, this year, which still needs the approval of both the UK and European parliaments, (On October 19, 2019, UK parliament will approve or reject the agreement), the divide between the elite class which run multinational companies with the direct or indirect control of the Jews (KJM) and the general masses who are suffering from multiple problems in wake of differences on the refugee crisis, Syrian war, Greece's weak economy, violent protests against the labour laws in France etc.—the chances of European Union's disintegration and a rift among the NATO countries, as noted by the "Stop NATO protests in Europe are quite opposite to the Israeli secret interests and those of the KJM.

In case of the South Asia, cognitive dissonance of the Khazarian Jewish Mafia is also damaging their interests. In this respect, on the one hand, the Mafia considers India as its largest market, while, it is creating unrest in the region on the other.

In this connection, since the fundamentalist party BJP led by the Indian Prime Minister Narendra Modi came to power in India, it has been implementing anti-Muslim and anti-Pakistan agenda. Encouraged by the fanatic Trump, assaults on Muslims, Christians and other minorities by the Hindu extremist parties have continued. New Delhi which has strategic partnership with Tel Aviv has perennially been exploiting the double game of the US-led West in relation to world phenomena of terrorism in relation to Pakistan and Afghanistan.

Tensions between India and Pakistan reached a feverish pitch on August 5, this year, when New Delhi unilaterally annexed the occupied Kashmir, revoking articles 35A and 370 of the Constitution which gave a special status to the disputed territory. A strict lockdown was imposed, which has snapped off ordinary people's internet and mobile telephone service to hide India's human rights violations and to cut off that region from the world. More than two months have been passed. But, Indian forces have continued lockdown and curfew in wake of shortage of foods and even medicines for the patients. Besides, Indian extremist rulers are also escalating tensions with Pakistan to divert attention from the drastic situation of the Indian Controlled Kashmir, and have continued shelling inside Pakistani side of Kashmir.

Pakistan's Prime Minister Imran Khan was on seven-day visit to the New York City in connection with the 74th session of the United Nations General Assembly opened on September 24, 2019. In his interaction with the US lawmakers, scholars, human rights activists and the media, and meetings with the US President Donald Trump and world's other leaders, he briefed them on the repercussions of the Indian annexation of the disputed Kashmir valley. And during his speech at the UNGA, Imran reiterated the drastic implications of the lockdown in Kashmir, including dimensions of the Islamophobia and some other issues the world is facing.

On these occasions, P.M. Imran Khan straightforwardly and realistically exposed US-led West's double standards which also indicate the contradictory policies of the KJM.

In this context, Prime Minister Imran Khan said: "The Indian occupied region has been facing a lockdown and clampdown since August 5...I fear that after the curfew is lifted, there would be a massacre [of Kashmiris] by the 900,000 Indian troops deployed there...Once a conflict starts between two nuclear armed nations, it goes beyond our hands...Unfortunately, India today is governed by a racist, Hindu supremacist party RSS...For what purpose was the UN established?...lukewarm response shown thus far by the global community over the issue...How can the global community remain silent when eight million people are being treated worse than animals?...I am disappointed by the international community. If eight million Jews were put under siege...you can imagine the action...The only reason why Kashmiris are subjected to this is, they're Muslims. Over one billion Muslims are watching this unfold. But where is the world community?...This will have repercussions and will create

radicalization...This is the time not to appease but to take action...Islamophobia is creating divisions, hijab [Scarf] is becoming a weapon; a woman can take off clothes but she can't put on more clothes...It started after 9/11 and it started because certain western leaders equated Islam with terrorism...inaction by the international community, particularly of the US-led West's major powers who have financial interests in India, could lead to conventional war which could be culminated into nuclear war between the two countries”.

Nonetheless, despite perennial phony global war on terror and the New World Order which resulted into New World Disorder, some other developments disappointed the Israelis and the Khazarian Jewish Mafia. In this connection, Senate's resolution against Trump regarding withdrawal of American-backed Saudi war in Yemen, which has, rapidly, increased the cost of war, bringing about multiple internal crises, affecting the ordinary Americans and Western citizens, particularly those of Europe might be cited as example.

Especially, President Trump admitted on October 9, 2019 that Washington has wasted \$8 trillion on wars in the Middle East. While speaking regarding the invasion of Iraq, Trump lamented that thousands of American soldiers died or were wounded in the conflict, which took millions of lives on the other side. In fact, America spent a hefty amount on global war on terror, prolonged war in Afghanistan, support to rebels in Libya and some other countries such as Somalia, Philippines etc.

Some latest developments are also notable in this regard. On October 9, 2019, Turkish military forces launched ‘Operation Peace Spring’ and invaded northeast Syria to push Kurdish militants from the People's Protection Units (YPG) away from border areas. After the condemnation of the major Western powers, including America and interference of the United Nations Security Council which cautioned against the risk of dispersion of Takfiri terrorists—undermining the campaign to defeat ISIS, the Vice President of the US Mike Pence said that on October 17, 2019, Washington and Ankara have agreed on a five-day ceasefire. Pence elaborated that Turkey would pause its offensive for 120 hours in order to allow the Kurdish Protection Units to pull 30km back from the Turkey-Syria border. Once the withdrawal is complete, “Operation Peace Spring” will be halted entirely. He added that Washington will impose no further sanctions on Turkey once the ceasefire is implemented and it would also withdraw existing sanctions once the Turkish military operation is completed. But, after 13 hours, clashes continued on the border between Turkey and Syria—Kurd fighters on October 18, which broke the ceasefire-truce.

However, it indicates contradictory strategy of the President Trump, as he had decided to withdraw American forces from Syria. He had imposed additional sanctions on Turkey in connection with latter's offensive of Syria against the Kurds. At the same times, he had stated that he wanted diplomatic solution of the crisis, while offering his services for arbitration.

Notably, President Donald Trump who was acting upon war-mongering policy against Iran in the aftermath of September 14, 2019 drone attacks on key Saudi oil installations, for which both Washington and Riyadh blamed Tehran despite the denial of the latter and acceptance of the claim by Yemen, Trump agreed with the Premier Imran Khan's offer to mediate the crisis between the US and Iran and between Saudi Arabia and Iran, as decided during the second meeting between Trump and Imran. For this purpose, Imran Khan visited Tehran on October 13, this year and met Iran's President Hassan Rouhani. Despite a mysterious attack on Iran's oil tanker, Rouhani gave a positive response to Imran. In this context, Prime Minister Imran also reached Saudi Arabia on October 15, 2019 as part of his initiative for reconciliation, where he met King Salman bin Abdulaziz Al Saud and Crown Prince Muhammad bin Salman Al Saud.

But, Trump Administration wants to keep the so-called threat and phobia of Iran on Saudi Arabia so that Riyadh kept on buying American weapons and arms. Taking advantage of Saudi Arabia's weak military capacity, on October 11, 2019, the Pentagon announced the deployment of a large number of additional troops as well as equipments in Saudi Arabia. While, during his trip to the Middle East on May 21, 2017, Saudi King Salman and Trump signed a defence deal of nearly \$110 billion agreement to bolster the military capabilities of Saudi Arabia. Trump's key aim of such arms deals which also include some other Arab countries like Qatar is to promote the financial interest of the KJM.

Besides, Tel Aviv wants to intensify the new Cold War between the US-led West and Russia by manipulating especially America-Russian differences over Ukraine and Venezuela so as to avoid the two-state solution of the Israeli-Palestinian dispute, as some European countries have also been emphasizing on Israeli Prime Minister Benjamin Netanyahu to stop the expansion of West Bank settlements and restart a negotiation process for the two-state solution of the Israeli-Palestinian issue in wake of the debate between the Zionists and non-Zionist Jews in relation to the two-state solution of the issue.

Now, Israel and Zionist Jews have no option except the settlement of the Israeli-Palestinian issue. On the other hand, Indian Prime Minister Modi also has no other option except the solution of Kashmir dispute. Therefore, Khazarian Jewish Mafia aligned with the Indian extremist rulers who are dividing the world on religious lines, will prefer a major war between the Western Christian World and the Islamic World.

Terror attacks at two mosques in Christchurch, New Zealand on March 15, 2019 by Australian man, namely Brenton Tarrant who opened indiscriminate fire at Muslim worshippers killed 50 Muslims. Online reliable sources confirmed Israeli connections of Tarrant. Four mosques in the British city of Birmingham were damaged overnight on March 21, this year in a spate of Islamophobic attacks. Intelligence services of the New Zealand and the UK have been stepping

up investigations into far-right extremists which have been encouraged by the KJM. And New Zealand's Prime Minister Jacinda Ardern surprised the other Western countries by taking very positive steps in favour of the Muslims. Hence, especially Mossad can again target New Zealand's Muslims. It can also use ISIS terrorists to conduct more terrorism related assaults in this country or any Western-European country in order to ensure 'clash of civilizations,' between the Western and the Muslim worlds. However, false flag operations keep on going the Western countries and elsewhere in the world.

Another regrettable point is that by pursuing the duplicity of the Khazarian Jewish Mafia, irresponsible attitude of Indian, Israeli and some Western politicians has introduced dangerous socio-religious dimension in their societies by equating the "war on terror" with "war on Islam" and acts of Al Qaeda and ISIS with all the Muslims. Their media have also been contributing to heighten the currents of global politics on cultural and religious lines with the negative projection of Islam. Owing to these reasons, far right-wing parties and "Stop Islam" movement in the West, particularly in Europe has been becoming popular by largely attracting their people. Right-wing parties in a growing number of European countries have made electoral gains. The right-wing parties range across a wide policy spectrum, from populist and nationalist to far-right neofascist.

In order to obtain their sinister designs, Mossad, Indian RAW and CIA operatives have also been assisting ISIS, Al Qaeda and similar terror outfits which have accepted responsibility in relation to various terrorism-related attacks on Christians in Egypt and some African countries, including some Western countries.

It is because of anti-Muslims developments that a greater resentment is being found among the Muslims and peace-loving Christians who think that President Trump in connivance with the Indo-Israeli lobbies is sponsoring state terrorism, directly or indirectly from Kashmir to Palestine. Emboldened by the KJM-led President Trump, both Tel Aviv and New Delhi have been equating the 'wars of liberation' in Palestine and Kashmir with terrorism. Their main purpose is to divert the attention of the West from their own state terrorism, while employing delaying tactics in the solution of these issues.

Although in the present world of social media and internet, Machiavellian politics of the past has been replaced by modern trends such as fair-dealings and reconciliation, yet by following the old strategies, Khazarian Jewish Mafia has been practicing the most horrible form of colonialism and neo-colonialism, while employing ruthless techniques of terrorism by assisting the militant groups like Al-Qaeda and ISIS which conducted various terrorism-related attacks in the US, Europe and other Western countries, including Turkey, Pakistan, Bangladesh, Iraq, Syria, Egypt, Iran, Indonesia, Philippines etc., and some African countries. Thus, they massacred thousands of persons which also include Christians.

It is due of the flawed internal and external policies, especially a prolonged war in Afghanistan and continuous war on terror that America is facing multi-faceted crises which have been accelerated under the presidency of Donald Trump. Besides, Trump's extremist and racist policies have accelerated the domestic extremism in the US, which will take the country to the "state of nature" when there was a "war of all against all".

In America, CIA, FBI and Department of Homeland Security which are working as "states within a state" or "shadow Governments" or "Deep state means," are also clandestinely working against one another. They do not respond to the civilian political leadership-the President and the Congressmen which are also fighting a war of nerves against each other. So, domestic extremism in the US may result into a civil war in the country.

In these terms, cognitive dissonance of the President Trump has continued unabated. In the recent past, he said that he would withdraw the US forces from Afghanistan after reaching an agreement between the US officials and Taliban representatives who were negotiating at Qatar. But, he suddenly cancelled the talks. But, during his meeting with P.M. Imran, he requested him to mediate between America and Taliban so that the US could withdraw its forces from that country, which is rapidly increasing American cost of war. Likewise, sometimes, President Trump wants to continue trade wars, especially against China and sometimes, he states that he wants a positive deal with Beijing after negotiations which are under process. It is also true in case of North Korea and the Middle East where Donald Trump is pursuing contradictory policies. As already mentioned that Trump had abruptly announced to withdraw American forces from Syria and he had imposed additional sanctions on Turkey in connection with latter's offensive of Syria against the Kurds, while stating that he wanted a diplomatic solution of the crisis, offering his services for mediation.

President Trump whose policies are unpredictable has become more confused due to the prospective 'impeachment' and hence, he can take any risky move inside America or abroad, which can further increase unrest in the US, in the Middle East and probably in the entire world. At present, fanatic leaders are in power in the US, India and Israel, their collaboration with the Khazarian Jewish Mafia may culminate into 'clash of civilizations', particularly between the Muslim and the Christian worlds. Their nefarious designs may also result into nuclear war between the US-led West and Russia or between America and Russia or between Pakistan and India. These dangerous conflicts will envelop the entire world and will bring about unimaginable destruction which will eliminate the all human beings.

Although Khazarian Jewish Mafia's cognitive dissonance is bringing about its demise, yet question arises on whom the Khazarian Jewish Mafia will rule when the whole world would be destroyed. Therefore, it is the right hour that loyalist Americans, non-Zionist Jews and peace-loving citizens of every other religious community must play their positive role for

global peace by stopping the division of the international community on religious and cultural lines.
