

Techniques To Bring About The New World Order

By Dr. Gianni DeVincent Hayes, HumansAreFree.com (HAF), 14 January 2020

Americans are possessed with ennui and malaise, and worst of all, fears. Perhaps these conditions **explain the rash of suicides**, the campus murders, the weariness, the failure to act on others' behalf, the inertia and apathy, and the near lack of humanism.

The **Inner Circle**, the **Elitists**, the **Powers** — any name you want to call them — plan and organize behind closed doors to bring about their global governance, or the **New World Order** (NWO) or one-world government. To do this, they must push every country to its knees so that the citizenry cannot fight back.

America appears to be the last stronghold for them to conquer, and at that, we are already weakened. They employ a slate of techniques to establish the **NWO**, but behind each of these methods is one basic practice: To instill fear in the masses so that we will rely on the government for safety and protection, and thus yield our rights and freedoms in the process.

Below Are Some Of The Major Means For To Achieve Their Goal, But Don't Mistake A Rose For A Rose And Attribute Everything To Them:

1. Harassment: When faced with opposition, the Elitists first attempt to overcome by “buying” someone out. If that doesn't work, they resort to discrediting and then harassment in extreme form via endless phone calls, tapping or tracking, or tailing and following as well as putting out negative, disparaging and secret info on them, snooping in their lives and projects.

IRS hassles, accusing one of false crimes, negatively doctoring a person's personal and work records are all means for the Illuminati to gain superiority over individuals and to make them cede to their goals. Driving opponents or dissenters mad or to the point of paranoia is one of their prized exercises.

2. Population Control: Invented food shortages, water contamination, lack of space, depletion of “green” are maneuvers to slice off 2/3rd of the world's six-billion citizens, and save themselves, while allowing death and other horrors to befall the other 4-billion.

Subtle means of ending our existence include **abortion** (**Planned Parenthood** is the main culprit), **genetic engineering** (cloning allows engineers to create an army of soldiers bred to have massive muscle bulk, superior senses, powerful killing skills or to breed doubles to replace people; it also introduces chimeras (hybrid animal/ human forms), and angels of death (ridding hospitals, clinics — the general population — of infirmed and old people who put burdens on our society. Euthanasia is a form of this, as are fatal surgical procedures).

3. Contamination: Any form of poisoning will kill a sizeable population, and this can be targeted. The elite can **contaminate our water supplies** and food resources (genetically modified food may be exemplary), and despoil our land (soil impregnated with bacteria, oil and other toxic spills).

4. Detainment Camps are set up as holding areas until termination ensues or the enslavement of those in society they believe will serve as strong and vital slaves.

Whether factual or not, that we even believe they exist puts us in a state of fear and anger. Underlying the knowledge of such Gulags is the simple fact that the American populace realizes that a police state or Martial Law is on the horizon.

5. Moral Corruption has been and remains a major technique for bringing about the **New World Order**, with all its anti-Americanism, anti-patriotism, and anti-traditionalism going on.

Destruction of home-taught values has been aligned with the new educational docket in government schools. Relative values rule over old-fashioned, family-oriented absolute values... what is morally, ethically and legally right and wrong (“Whatever feels right to you, do it, even if it isn’t”).

6. Diversity: This refers to forcing us to show tolerance, understanding and acceptance for values we do not believe in. “**Political correctness**” was the thrust for this. **Censorship** and hate crimes are also a means for forcing undesirable changes down our throats.

7. Racial Dissention: This is a method they use to create conflict among races and nationalities, as in “Divide and conquer.”

8. Removal of God: The Elite work hard to prohibit us from making any reference to God or Christ and the sacredness of Christianity in public but yet they promote pagan holidays, **Wicca**, **black magic** and practice **Satanism**.

A society lacking in God and spirituality — especially one supposedly built on Christianity — is a doomed civilization, and one that easily cedes to others.

Apostasy in our churches, especially Catholicism, is a sign of the destruction foisted on us. Their goal is to reach back to the Ancient Mysteries, and to learn what they believe are advanced technologies from ancient aliens and gods

9. Ecumenism is another parameter for a one-world religion. Believing that Christ is not the savior, or that other people or so called “prophets” are the saviors makes Christianity invalid.

Some believe **New Ageism** will be the **one-world religion**, while others think global warming will become the hymn. An aspect of their plan is their contrived apocalypse based on the books of Revelation and Daniel.

10. Remiss Authority Figures: Many parents and adults fear today’s youth. Kids scream, yell, mock, and often physically abuse their parents or other elders. They’re rude and disrespectful.

Much of this is attributed to the “It takes a village to raise a child” mentality, where children are supposed to be cuddled, free-thinking, and do whatever they want. Parents and authority have become remiss in correcting foul children. The Elite encourage children to resist authority, on one hand, while wanting them to mindlessly obey, on the other.

11. Failing Educational System: **Education** is the key approach for altering children’s beliefs of what is right and wrong through **mind control** programs, **rewriting history**, introducing **alternative and debased sexual teachings**, and false ideologies.

This conditions them to accept whatever the Powers lay before them, and **they are dumbed down** so that they won't learn the truth and rebel.

12. Sexual Perversion is used to advance Elitists' goals and **degrade our morals, getting us to accept and even adopt anything they put on us**, and often using such activity to blackmail us.

13. Drugs / Alcohol: Breeding a society of **chemically abused and dependent** individuals is one way to get people to accept matters contrary to their morals, and to rely on the government to help them get through it.

Addiction robs us financially and psychologically while diverting law enforcement efforts to other areas. Prescribed medicine makes us reliant on pills and doctors while ballooning Big Pharma profits.

14. Gambling: Promoting illegal activities through pretenses of "enjoyment" and promises of making big money is yet another scheme by the Elitist to keep us dependent on money and materialism for our happiness, and to be dependent on outside forces for our happenings and success.

15. Chaos is a manoeuvre to keep us bewildered. By putting events and activities in a framework of utter turmoil where no one knows what to do, who to believe, or on whom to rely, the Powers can emerge as the saviours by offering solutions to the chaos they have secretly exacted.

Conflicting issues via the Hegelian Dialectics keep the masses on edge, doubting, and confused, as well as side-tracked from the real issues they want to forward.

16. Cover-ups: What the Illuminati don't want us to know, they **cover up by disposing of the people, making them "disappear,"** or placing vital documents under "classified," or through throwing out red herrings at us.

Whistleblowers are often destroyed career-wise, or personally mocked, or injured, and even **murdered**. Underground and black ops are keys to cover-ups.

Propagation of conspiracies is a game for them and a way for them to conflict the masses. Intentional leaks are one of their prescribed methods for conditioning us to their intent and for confusing us.

17. Environment: **Using global warming** as a "unifying issue," the Illuminati are not only **making scads of money through corporate green programs** and retail merchandise, but also deceiving people into believing that the issue is real, when in reality **hundreds of scientists who are not given print can testify against it**.

Thus the environment is used as a weapon to employ the Elitist's objectives and to create a common mantra — **a religion of its own**. Added to this are sustainable development and eminent domain (taking commoners' lands for their own purposes), and controlled weather (**HAARP — High frequency Active Auroral Research Program** and other **weather weapons**), among other processes.

18. Destroying the Workforce: Damaging treaties (GATT, NAFTA, etc.) created the massive loss of jobs in our country via outsourcing and the erosion of our industries. America has been minimized as a strong nation and castrated as a super power.

Jobs have been given to **illegal immigrants** in our country or sent overseas to India and China and other nations. Americans struggle financially as the Elitists lower us to third world status. Illegal immigration is just one of their schemes for running the world.

19. Crimes: A society frightened of being murdered, raped, beaten, held hostage, hijacked, or kidnapped, or victims of vehicular deaths, road rage, and “suicided,” among other abominable offenses, is a society wailing for security, in spite of lost rights.

This, then, is just one more method of cuckolding us into ceding our rights to Big Brother. The ICC (International Criminal Court) was created to imprison people of different cultures, including Americans. The protection of hard core, guilty criminals is also symptomatic of a failing country.

20. Terrorism: The Powers keep us in a state of trepidation over terrorism — real or contrived — and cause us to cede our freedoms for protection. **2001’s 9/11 caused a major breakdown of the U.S. Constitution**, the infringement of rights and policies through Homeland Security, the **Patriot Act**, biochips, and soon-to-come Martial Law; hence, the concentration camps for those who balk against the Police State or promote dissension.

21. Slavery and Prostitution: Many people, **especially younger ones, are rounded up in clandestine ways and are forced into slavery or prostitution**. They may be stolen during the night, taken coming and going from school, or whisked off in parking lots.

They are often earmarked by the Powers who want young maidens or lads to “entertain” visiting dignitaries or foreign **VIPs who abuse the kids** and sell them to slave masters, pimps, and other black market factions. Some researchers believe that these missing people have even been sacrificed in satanic rituals.

22. Genocide is a method for wiping out an entire society for depopulation purposes, for government gain, for eliminating enemies, for creating a super race by purging traits deemed negative.

Genocide, then, is an effective way for the Elite to sort out which people they want and which they don’t; it gets rid of the unwanted in one fell swoop. Some of their methods include random extermination (holocausts) and heinous atrocities, creating insurrections to kill off a religious or racial group, and holocausts.

23. Decision Makers: The Illuminati’s power shores them up to decide who the next president or prime minister will be, who will receive grants and government funding, and anything else that affect us on a personal and national level.

24. Diseases: Bacteria and viruses can be released during either war or peace time to create a chaos and a demand for protection that would help the powers to achieve their mission of globalism; bio-warfare can be reserved for combat when the substances are unleashed on enemies.

Besides using bacteria in germ warfare, they also test substances on humans, some unknowingly. The introduction of **HIV**, the rise of once **eliminated childhood diseases**, biochem warfare, and the growing number of unknown bacterial and viral diseases are representative of their manipulations.

They can put substances into drinking water; they've introduced cell phones knowing the dangers of cancer; and they've used microwaves and other technologies against us, as well as various forms of experimentation.

25. Computerization/ Technology: The Elite have many classified means of controlling us, though some are still in the trial stages.

Consider nanochips (teeny tiny robots can be placed in humans to control them), robotic reproduction (the ability of robots and computers to reproduce), and GTWA (Global Technology World Alliance which is a secret society developing and working with advanced technology to achieve control and domination of international supremacy and economics.

Bluetooth, Wii and other high-tech tools, along with laser and advanced weaponry (stun guns, particle beams) are also tools for fully establishing the NWO. The Elite have secret labs and black ops; yet, they won't support scientists and researchers who create inventions or medications for the good of mankind.

26. UFOs: Whether truly from another planet or invented by the government, they can be used to instill paralyzing dread in us if they tell us that an invasion is real. Quickly we would give up all our rights to be protected from enemies.

27. Economy: In order for the Elite to completely take over the world, they have to capture the economic sector to create a one-world economy, as seen in the collapse of the American dollar, along with merging the U.S., Canada and America into one of the ten regions.

These ten regions each will have a representative on a governing panel, with one member emerging as a dictator. Many of the other ten regions have already been set up. Elitists manipulate the stock market and all other monetary resources; they own the **Federal Reserve**, and control all international currencies, determining what your paycheck will be worth.

28. Feminism and Working Mothers: From the moment **the Powers decided** to use **left-wing feminism** as a way to cause resentment between men and women and their children, is the moment when the institution of marriage faltered.

Two incomes gave Mom and Dad the false sense that they had money, and thus materialism also seeped into our lives at the same time. The role of males has been re-defined and belittled.

29. UN: **Most damaging for American citizens is the UN** which strives to undermine our country, reduce our spending power, eliminate our freedoms, lower us to third world status, make us pay for other countries' problems, and rape of us of everything that once made us powerful.

Doing this allows the NWO to weaken the most prevailing muscle in the world so that we have no strength to fight any of their programs.

30. Confiscation of Rights: The **NWO Elitists** can't fully stage their takeover until our country is disarmed, as an armed citizenry can fight back. The day they take our guns is the total end of our sovereignty and our country.

31. Secret societies serve to unite the Elitists in their demise of our nation and the installation of a **global government** via their networking force and underground operations, as well as control over religious, educational and corporate systems.

They will never admit that these societies exist and that they are the muscle behind the authority. Symbolism is one facet of them, and they use newspapers, radio airwaves, and TV to subliminally pass messages to one another.

32. Mind Control: The government and their counterparts are most adept in brainwashing techniques using a litany of resources, such as drugs (**MKUltra, LSD**), projects (**Project Monarch, Phoenix**), **propaganda** (constant bombardment of untruths and omissions by the media), cults/ programming (groups giving up their individuality and blindly following some unstable leader), and video games, rock music, violence and witchcraft on TV, such as **Harry Potter**.

Even works of fine art are polluted with vulgarity and crude innuendos. Societies have agents and sleepers everywhere.

33. Media Mergers: **The Illuminati own all the major media in print, television, radio, music, and theater.** They create conglomerates and monopolies. Doing this gives them control over everything we watch, read, and listen to.

34. Corrupt Government: **CIA drugs and arm smuggling**, bought politicians, undercover dealings, disinformation, lies and distortions, blackmail, constant deceptions are all part of their bid for a one world government.

Disinformation is a major means of confusing us, which they do through false media reports, chain letters, the articles they place on the internet, and the rumors they start.

35. Lack of Missile Defense: An unarmed America is akin to a fire in a theater with no exits. While other countries are building their arsenals, we're minimizing ours. Disarmament and the decline of our militia, and thus our ability to defend ourselves, certainly mean defeat even before a conflict breaks out.

36. Decline of Military: Our military lacks the self-confidence, the manpower, the equipment and the technology needed to fight opposing forces, and is compromised in morality and morale through unnecessary wars that are not intended to be won.

37. Passing of EOs: EOs (Executive Orders), PDs (Presidential Directives), and PDDs (Presidential Decision Directives) have become so amorphous and customary that no one cares when a new one is enacted.

This is an Illuminati tactic to proceed with their personal agendas without first obtaining congressional approval; thus allowing extreme orders to be written that would prove detrimental to the general public. For example, a single EO could dissolve the entire United States.

38. Infiltration: The Illuminati use subtlety to invade churches, schools, corporations, small businesses, organizations, and everything else, and implant their ideology and philosophy of a one-world government through well-honed issues, such as global warming. They have their “people” (often members of their secret societies) placed throughout these entities who make decisions beneficial to the Elitists.

In summary, the Elitists use these approaches among others to bring about their **New World Order or global government**. The Inner Circle and their octopus arms suck in prey smaller than they to conquer, and will resort to any method of getting what they want. They have planned long and hard, covering all their bases, and devised ingenious ways to conquer us. Be on guard.

Our hope of overcoming them lies in the schisms they create among themselves, their ongoing feuding and power fight for the top position along with empowering ourselves with knowledge of what they do. That, they can't take away from us and we can use against them.
