

## All You Need To Know About COVID19 Vaccine Safety

By Steve Kirsch, Principia Scientific, 26 October 2021

Steve Kirsch, a tech millionaire who funded covid vaccine trials was so shocked at what he saw he became an COVID anti-vaxxer. The Silicon Valley entrepreneur risks everything to join the growing army of whistleblowers exposing the deadly dangers of these experimental ‘vaccines.’

In truth, the COVID pandemic is a ploy to persuade a gullible, scientifically-illiterate world population to willingly put into their bodies a toxic potion that will kill the infirm and sterilize the healthy. All part of a eugenics program perpetrated by a psychopathic global elite who want the planet all its resources for themselves.

After making his fortune as the founder of Infoseek, the search engine that was the Google of its day, Kirsch has donated millions into fighting humanity’s biggest threats.

Below we present Kirsch’s presentation to help wake up the masses before it is too late:

**EXECUTIVE SUMMARY (1 of 2)** The vaccines kill more people than they can be expected to save for all groups, especially young adults. So far, over 150K Americans have been killed by the vaccines. We can show this 8 different ways.

There is no doubt that the vaccines are the cause of all of these deaths because we can prove this with the Bradford-Hill criteria. The FDA and CDC have deliberately ignored the safety signals: **assuming the VAERS URF=1**, ignoring clear fraud in Phase 3 trials, and refusing to do autopsies.

They look the other way when highly respected pathologists such as Peter Schirmacher have determined that the vaccines are deadly. Government-led censorship is used to silence critics. Fear and intimidation techniques are used against doctors who try to speak out.

**EXECUTIVE SUMMARY (2 of 2)** Early treatment can get us to near zero COVID without any of the safety risks associated with the vaccine. They are superior to vaccination in virtually every aspect. We've had 99% effective treatments since March 2020 and now they are even better (99.76%).

The one thing every hospitalized COVID patient has in common: they didn't use a proven early treatment protocol. Nobody in America will debate our team on the safety of the vaccines because nobody in America wants to admit they were wrong.

The vaccines should be immediately HALTED. Instead, we are doing the opposite by mandating deadly, experimental vaccines that were never properly tested.

The vaccines are killing more people than they are saving

**Killed: 150K** [1]

**Saved: 10K** [2]

**Nobody has been able to attack the data or our methodology** [3]

**Nobody wants to debate this "on camera"** [4]

**Even worse... COVID vaccines kill more people than they save for all age groups over a 6 month efficacy period** [5]

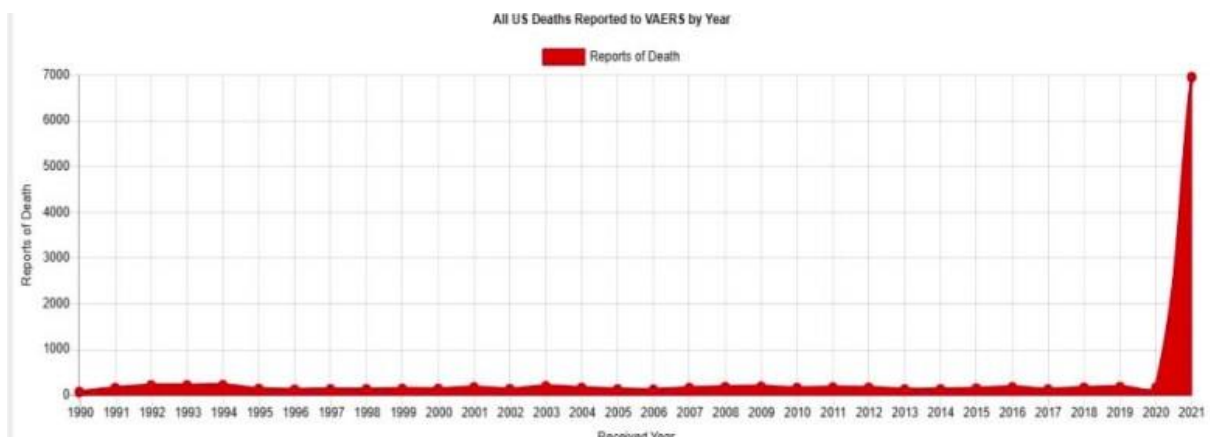

Age	Killed	Saved	K:S
20-30	67	11	6.1:1
30-40	121	31	3.9:1
40-50	210	76	2.8:1
50-60	436	185	2.4:1
60-70	1031	450	2.3:1
70-80	2140	1133	1.9:1
80+	6276	3458	1.8:1

**Killed>Saved for all ages** The table above shows the Killed by vaccine:Saved from COVID death in 6 months numbers. Units for both columns are per million doses. You can read [this article](#) which details how all these numbers were calculated. For kids, we kill over 6 kids to save 1 kid from a COVID death. Mandating vaccination for anyone, especially school-age children, is proof of a corrupt society. Bottom line: It is nonsensical to vaccinate any age group.

**3 stopping conditions have already been met 1. # killed > # saved 2. >150K killed 3. >300K permanently disabled [6,7,8]**

## VISION TEST

Can you spot the unsafe vaccine? (nobody at the FDA or CDC can, including the advisory committees)

## THE FDA SAYS THESE ARE ALL “BACKGROUND DEATHS”

But if they were background deaths, all the bars would be the same height. Do these look like the same height to you?

**And it's all for nothing...** In Israel, the vaccines are making no difference in protecting people from being infected; the core use case. Claimed benefit: 95% Actual benefit: ~0 percent

Robert W Malone, MD @RWMaloneMD · Sep 2

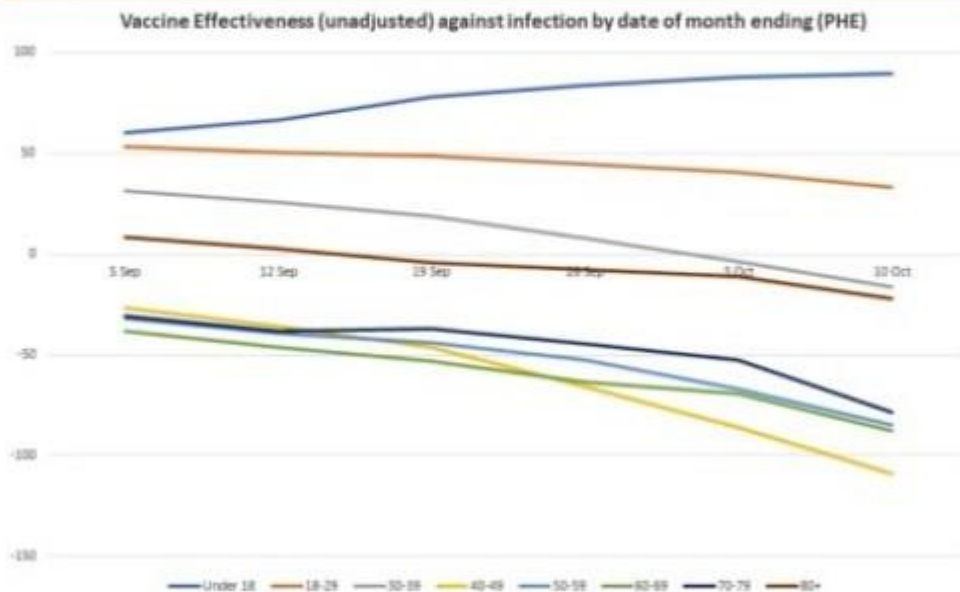

...

More on Israel cases. Not really consistent with the story line pushed by legacy media in USA. Not a pandemic of the unvaccinated in Israel.

Age Group	Cases Fully Vaccinated	Cases Unvaccinated	Percent of Cases Fully Vaccinated	Percentage of Population Fully Vaccinated
20-29	2689	795	77.2%	71.9%
30-39	3176	881	78.3%	77.4%
40-49	3303	635	83.9%	80.9%
50-59	2200	359	86.0%	84.4%
60-69	2200	187	92.2%	86.9%
70-79	1384	100	93.3%	92.8%
80-89	540	61	89.9%	91.2%
90+	142	20	87.7%	89.7%
TOTAL	TOTAL	TOTAL	AVERAGE	AVERAGE
20-90+	15634	3038	86.0%	84.4%

UK data shows VE = -109percent for 40 year olds In other words, if you are 40 and you get vaccinated, you are 2X more likely to be infected than an unvaccinated person.

## Infection Rate in Vaccinated People in Their 40s Now More Than DOUBLE the Rate in Unvaccinated, PHE Data Shows, as Vaccine Effectiveness Hits Minus-109%

In the latest [Vaccine Surveillance report](#) from [Public Health England](#) (PHE) the infection rate in double-vaccinated people in their 40s went above 100% higher than in the unvaccinated for the first time, reaching 109%. This translates to an unadjusted vaccine effectiveness of minus-109%.

So they changed the story... “the vaccines help prevent you from being hospitalized if you get infected”

90 percent of hospital admissions are vaccinated in a region where 50 percent are vaccinated. Note: This is a rare US hospital which tracked all-cause admissions by vaccination status. Most hospitals refuse to do this. This was an exception because one person spoke out to make the change. [9]

So they changed the story again... “the vaccines help prevent you from dying if you get infected”

If you are <50, vaccines make you slightly more likely to die if you get infected. [10]

**Table 5. Attendance to emergency care and deaths of sequenced and genotyped Delta cases in England by vaccination status (1 February 2021 to 12 September 2021)**

Variant	Age group (years)**	Total	Cases with specimen date in past 28 days	Unlinked	<21 days post dose 1	≥21 days post dose 1	≥14 days post dose 2	Un-vaccinated
Delta cases	<50	497,105	119,611	49,527	30,359	83,009	85,407	248,803
	≥50	95,587	35,596	7,602	314	7,129	71,991	8,551
	All cases	593,572	155,252	58,003	30,674	90,138	157,400	257,357
Deaths within 28 days of positive specimen date	<50	204	N/A	7	6	11	48	132
	≥50	2,336	N/A	32	11	138	1,565	590
	All cases	2,542	N/A	41	17	149	1,613	722

Computation: Death rate of unvax < Death rate of vax since  $132/248803 < 48/85407$  (.053% < .056%)Source: [SARS-CoV-2 variants of concern and variants under investigation](#) (UK government official report Sept 17)

19

Today in the UK, 66.7 percent fully vaccinated, but 80 percent of the deaths are fully vaccinated. Whoops.

## Latest UKHSA report shows Vaccinated accounted for 80% of Covid-19 Deaths and 60% of Hospitalisations in the last 4 weeks

by [Daily Expose](#)

The latest figures published by the new UK Health Security Agency on Covid-19 hospitalisations and deaths show that the Covid-19 injections still don't seem to be working. The 'Covid-19 Vaccine Surveillance Report - Week 41' was published by the UK Health

Pfizer's own study showed that you had to vaccinate 22,000 people to save 1 COVID life. Even with the a ridiculously conservative VAERS underreporting factor (URF) of 3, and 220M vaccinated and 7,437 deaths in VAERS and 86% of those being causal, that means for every 22,000 people you vaccinate, you kill 1.9 people So even under extremely conservative assumptions, the vaccines are nonsensical: you are killing 2 people to save 1 person.

Norway also confirmed vaccine may cause deaths 1. 100 reported deaths in nursing home patients examined (87.7 avg age) 2. Using medical records alone: a. 10 cases: probable b. 26 cases: possible c. 59 cases: unlikely d. 5 cases: unclassifiable 3. The 36% possible number aligns with the 30% to 40% estimated by Schirmacher The big question is: How are Germany and Norway both able to determine causality in sample sizes of 100 or less, but the CDC can't determine causality in a single case of over **14,000 deaths** it investigated?!? [11]

Germany found boosters were too deadly... even for the elderly This is a brief from a regional association of physicians in Germany to their members informing them about an incident in a nursing home where 90 inhabitants were given the third booster shot. Out of this resulted 1 death, 2 resuscitations, and 9 critically ill with cardiopulmonary symptoms. "Given the fact that neither German authorities (PEI) nor European Medicines Agency EMA has approved this booster," the association is urging the members to seriously reconsider the need for a booster as of now. [12]

They've been gaming all the safety data Hospitals instruct staff not to report to VAERS 90 percent of hospital admissions are vaccinated in a region where 50 percent are vaccinated. The same rise in serious adverse events is happening at other hospitals, but nobody is talking. [13]

"In plain English, people in the 65+ demographic are five times as likely to die from the inoculation as from COVID-19 under the most favorable assumptions!" (it's even worse if you are younger) [14]

## **Vaccination is nonsensical**

Vaccines, mandates, and boosters are all nonsensical. We have > 2:1 V:C ratio, but need at least 1:10 to be viable. If we want to end the pandemic and get back to normal, we should copy what Uttar Pradesh did. They didn't rely on vaccination at all. They used early treatment. If we don't want to end the pandemic, we should keep mandating vaccination over and over again, just like Israel.

Vaccinating kids, pregnant women, and those who have already had COVID is even worse. Our society today is driven by a single goal: vaccinate everyone alive, whether they need it or not.

## **Clinical Trial Fraud**

Inconvenient truth: Pfizer isn't trustworthy...

1. **Pfizer's own 6 month study** showed that you were more likely to die if you got the vaccine (see page 33).
2. The age 12-15 trial was way too small to show effectiveness or safety. With just 1,129 kids, it had one permanent paralysis that was never reported to the FDA (Maddie de Garay). Today, nobody has been warned about this and there was no investigation by the FDA. Nobody has officially acknowledged it ever happened. They ignore it.
3. **Pfizer paid one of the largest criminal fines ever** imposed on a drug company for the arthritis drug Bextra.
4. The **Pfizer consent form** allows for participants who need emergency care and go straight to their doctor or hospital to be ejected from the study.
5. Pfizer Phase 3 participants had 8 to 10X lower health risks (diabetes, cardiac arrest) as we showed here. There were a LOT of exclusions that enabled them to recruit such a healthy cohort. 110 people should have died in the placebo group. Only 14 did.
6. Causes of death were higher in the vaccine group, e.g., 4X higher rate of cardiac arrest.
7. Participants found it extremely hard to report adverse events (there were messages in the Facebook group about this but Facebook removed the evidence so nobody would know)
8. Five times (5X) higher drop off in the treatment arm than in the control arm (see next slide note the 311 vs. 61 in the last two rows); that's statistically impossible. Nobody asked about it.
9. The company is incompetent. They can't seem to find any safety signals even though obvious in VAERS (The **adverse event table** shows that the vaccines adversely impact every organ in the body). Pfizer still can't figure out if anyone has died.
10. No autopsies to determine cause of death were done in the treatment group. That's really odd especially when a top pathologist (one of the top 100 pathologists in the world) says at

least 30% of deaths within 2 weeks after vaccination were caused by the vaccine. Why weren't autopsies done on the people who died after being vaccinated? Answer: They don't want anyone to know what they died from.

11. They cut the trial short at 6 months. NO MORE CONTROL GROUP. We'll never know the long-term effects like vaccine-enhanced infectivity and replication, prion diseases, linked-epitope suppression, autoimmune diseases, cancers.
