

Dear Australian Citizens,

If You really do care about the fauna of our planet; view these, less than one minute, videos.

And

You can deceive people by lying to them, but you cannot fake a moving image. *[Editor's note: unless you have advanced holographic and video editing facilities such as were used for 911.]*

You just need to follow the money trail from our pockets into those of, what the evidence indicates, are corporate criminals and malfeasant politicians. There is an explanation for the unexplained, unprecedented rise in our electricity costs.

The evidence shows that the same Federal Minister who presided over the climate change scam now presides over the COVID19 scam. Here is the evidence of the scam. The link below shows the PCR test is totally unreliable and produces numerous false-positive results.

<https://www.nih.gov/news-events/nih-research-matters/immune-cells-common-cold-may-recognize-sars-cov-2>. (Word search on 'previous studies have reported that 20–50% of people who hadn't been exposed to SARS-CoV-2 showed T cell responses against different parts of the SARS-CoV-2 virus.)

And

"We have now proven that, in some people, pre-existing T cell memory against common cold coronaviruses can cross-recognize SARS-CoV-2, down to the exact molecular structures,"

Dear fellow Australians, once again, you just need to follow the money trail to malfeasant public officers and their big pharmaceutical buddies to find the answer to the pseudo-mandatory vaccine for a respiratory condition that history will show is less lethal than the endemic seasonal flu.

Respectfully Yours

Drs Judy Ryan and Marjorie Curtis
