

Was the plane crash of Dr. Madej an assassination attempt?

From StopWorldControl.com, 30 June 2022

History shows how brave people who oppose the criminal elites, sometimes disappear or die. Many people are therefore wondering if the plane crash of Dr. Madej is the result of sabotage. This post answers that question.

Dear Freedom Warriors,

Many people have asked me if the plane crash of Dr. Madej is an attack to silence her. We know that many opponents of the criminal elites have been found dead the past years, so there is of course always this possibility. We however have no solid evidence as of yet, and therefore refrain from making clear statements. An investigation has started. Meanwhile we ask for your prayers for Carrie and Billy, for protection and recovery.

There is however a reality of influential people who oppose the agenda of the criminal elites, who lost their lives.

In Africa five presidents who opposed the vaccines, suddenly died and were replaced by presidents who aggressively promote the injections onto their population. One of them was president John Magufuli of Tanzania, who publicly questioned the c0v!d numbers of his country. There were more than 400 cases and 16 deaths. He accused the National Medical Laboratory of lying.

To substantiate his suspicions, he sent two samples that supposedly belonged to people to have them tested. The samples, however, came from a papaya fruit and a goat. As he suspected, they came back... with positive results: "These people are infected with c0v!d-19." This is how he unmasked the deception. That same year this brave and honest president, and four other presidents who opposed the vaccines, suddenly died...

In Germany Udo Ulfkotte, the editor of one of Europe's largest newspapers, who exposed how journalists worldwide are paid by the CIA to lie to the public, was also found dead not long after the publishing of his book.

The inventor of the PCR test, **dr. Kary Mullis**, had warned against using his PCR test to determine if a person is infected or sick, because that's not something this test can do. Interestingly, right before the pandemic dr. Mullis died,... and what happened? His PCR test was used as the foundation for the pandemic, telling the world how hundreds of millions of people were "infected", while Mullis himself had stated that his test cannot determine an infection.

Recently in Germany, the doctor **Andreas Noak** revealed the presence of graphene hydroxide in vaccine vials. He died shortly after being arrested.

At the beginning of the pandemic a young professor named **Bing Liu** from the University of Pittsburgh, was shot dead in his apartment. Bing was on the verge of making very significant findings toward understanding the cellular mechanisms that underlie SARS-CoV-2 infection and the cellular basis of the following complications, which could have had a profound impact on ending the pandemic.

Dr. Raymond Rife was born in 1888 and he contributed a lot to technology in the area of optics, electronics, radiochemistry, biochemistry, ballistics and aviation. He also discovered a 100% effective cancer cure. In 1934 he was able to cure 14 out of 16 terminally ill cancer patients, while the other two were cured after subsequent six weeks. In 1934 Dr. Milbank Johnson who was to declare the results of Rife's cancer therapy was lethally poisoned and his documents vanished. Rife's laboratories were set on fire and ruined. Dr. Nemes who had replicated a part of Rife's work died in an inexplicable fire along with the destruction of all his research papers.

Royal Rife was poisoned in 1971 at the Grossmont Hospital.

These are just a few examples of a horrible reality that has been terrorizing our beautiful world: good people who oppose the criminal establishment, conveniently died.

Again, we have no evidence that the plane crash of Dr. Madej is the result of tampering, so we will not make any unsubstantiated claims until the investigation has revealed more details. I share this information to show to all who read this, that there is a reality, and we should be aware of this. I again ask for your prayers for Carrie and Billy, and all other brave freedom fighters that you know.
