

THE UNACKNOWLEDGED SECRET SPACE SALVATION UNDER OUR FEET – Updated

The question is do people who are witnessing the billions of dollars going into human trafficking and adrenochrome production and distribution and the statistics in terms of people made disabled by the vax understand this is part of an **OVERALL HUMAN GENETIC REVOLUTION INVOLVING TORTURE, MURDER, TOTALITARIAN GLOBAL CONTROL AND POPULATION CULLING EFFORT BY A CERTAIN** group of psychopaths with a very calculated agenda? The roll out of digital currency will simply solidify their dominion over you. We the awakened are faced with massive numbers of unenlightened **VICTIMS** in our midst that have already condemned themselves to a life of slavery, half-life, servitude and torture. Even if you stop the VAX booster mainlining by a substantial portion of the population tomorrow the damage to those as Ed Dowd's statistics clearly show is done. While inside the underground cities supposedly we are told, by those in the Secret Space Program that **MEDBEDS** could reverse all of this the likelihood that they will reach **TOPSIDE** anytime in the next embattled 7 years is miniscule. We battle the portion of the human family that has already gone underground and off planet for the right to exist and gain access to the technologies and solutions which would make life worth living for those billions that made the wrong choice and probably don't have the brain power to change anytime soon enough to make a difference.

You need to ask yourself and the representatives of the white hats and Trump whether they have made a deal with those in charge of the Secret Space Program and its assets and military might and off planet tech. Because this is where the rubber meets the road in terms of the future of humanity. At this point the destiny of humanity hangs in that balance. Although the majority of the surface dwellers appear to have no idea about this reality even though it stands in their way of freedom and redemption for our species.

People are so busy pretending that Secret Space and our dealings with off and hidden on planet and intradimensionals are figments of our imaginations that they waste their precious time and resources denying this reality even in the face of their demise. While people like Musk successfully mislead people on surface Earth into believing in useless out-of-date technologies the hidden underground/undersea bases roll along using energy from the vacuum and real Tesla tech proven decades ago to eliminate the need for sickness, poverty and scarcity of any kind. One wonders at that terrible dichotomy that exists just a few miles below our feet. One group of humanity thrives while the other is embattled with the entire deception which is life on surface Earth with **FAKE WARS, FAKE GOVERNMENTS, FALSE RELIGIOUS OPOIDS AND NON-STOP MEDIA DECEPTION**...battling for the remaining scraps of food, water and air still available for the moment but for how long?

While humans on the surface argue about whether aliens are real and think the Earth is flat our brothers travel untold distances to the stars, galaxies and terraform other planets. Slave ships enter Earth through portals and gather up the children and humans displaced by war and starvation perpetuating the dynamic of humans slave colonies onto other worlds. While satanic elite run a rampant slave trade and murder of children nonstop with the help of the CIA, FBI, law enforcement and governments around the world who holding their hands out to be included on the dole.

The white hats play a game of cat and mouse with those in positions of power. Making deals with mafia heads and theoretically searching for those within the secret gov and secret space program and the families in Basel Switzerland who still hold the keys to the financial systems of this world... sequestered and dominated by some unseen hidden hand or alien race that hides off planet and orchestrates the timing of the takeover of Planet Earth. The ones with the biggest guns win according to white hat Juan O Savin who himself wears a disguise to hide his true identity not from those in the know...who know exactly who he is but from the people who for some reason pose a threat to his ability to operate in the shadows one presumes. While Trump plays the embattled “candidate” while ruling in secret as President and Commander-in-chief allowing the Chinese to perpetrate a CCP led Biden show for the benefit or detriment of the American people as a distraction and ultimately place to lay blame for the destruction and exposure of the deep state while the real secret state continues undeterred and unacknowledged.

They built our space program on the backs of the sweat and tears of the surface dwellers...It's time we take back that which is our own.

Addendum: ... the idea here is that ALL THE PROBLEMS on surface Earth could be solved by the tech already in use by the secret space program that is operating BENEATH OUR FEET in underground cities and bases around the world. JFKjr (our VP) and Trump will need to negotiate with that rogue civilization which are our brothers and sisters, in order to FREE UP the tech and bring it to the surface. People need to become aware of this in order to demand that such negotiations take place on our behalf. If left to their own devices there is no guarantee the White Hats will be successful in this. What they need is the WILL OF THE PEOPLE BEHIND THEM to make this happen.
