

The US DOD Ran Operation Covid Warp Speed From Its Inception

By [Dr. Peter and Ginger Breggin](#), *Exposing the Global Predators*, 9 January, 2024

The US DOD Ran Warp Speed From Its Inception, Sidelining the FDA and Drug Companies

On January 7, 2024, my research uncovered an official Department of Defense publication (DoD) from May 15, 2020, describing the *masterplan* for Operation WARP Speed, confirming DoD's unprecedented role in running Warp Speed as a military operation:(1)

U.S. Department of Defense

IMMEDIATE RELEASE

Trump Administration Announces Framework and Leadership for 'Operation Warp Speed'

May 15, 2020 |The opening paragraph of the release places the U.S. military at the center of developing and controlling WARP Speed:(2)

On Friday, the Trump Administration announced the appointment of Moncef Slaoui as chief advisor and General Gustave F. Perna as chief operating officer of Operation Warp Speed (OWS), the administration's national program to accelerate the development, manufacturing, and distribution of COVID-19 vaccines, therapeutics, and diagnostics (medical countermeasures).

Dr. Slaoui is a venture capitalist and, formerly, Chairman of Global Research and Development and Chairman of Global Vaccines at GlaxoSmithKline, where he led the development of five major novel vaccines. As the four-star general in charge of the U.S. Army Materiel Command, General Perna oversees the global supply chain and installation and materiel readiness for the U.S. Army, including more than 190,000 military, civilian, and contract employees.

From the start, Warp Speed was a Great Reset operation with the chief advisor, a "venture capitalist," and the man in charge was a four-star general in the U.S. Army. This is an extraordinary example of the military-industrial complex at work, this time directing and organizing the greatest assault ever made on the lives of Americans and the U.S. Constitution. It is the U.S. Army acting as the assault troops for the global predators.

The DoD release describes how the heart of the defense establishment is fully geared up for Warp Speed:

"In addition to deploying 62,000 military service members in direct support of fighting COVID-19 on frontlines across the globe, the Department of Defense is racing towards a vaccine," said Defense Secretary Mark T. Esper. "Through our research and development labs, such as DARPA and the Defense Health Agency, and our massive logistical knowledge and capacity, we are committed to achieving the goal of Operation Warp Speed for the American people."

DoD Controls the Entire "Approval" Process for Safety and Effectiveness

The DoD press release makes clear that the FDA, which supervises and evaluates pharmaceutical industry studies for safety and effectiveness, is no longer in charge of vaccine development. The entire process is in the hands of the "government," meaning the military:

The protocols for the trials will be overseen and set by the federal government, as opposed to traditional public-private partnerships, in which pharmaceutical companies decide on their own protocols.

The “protocols” for the trials are the entire basis of how and by what standards the clinical trials will be performed if they are performed at all. The “government,” in this case, is the DoD with some advisory input from HHS, neither of which has the legal right or the capacity to take this role.

Meanwhile, when discussing the organization of WARP Speed in 2020, Paul Mango, HHS deputy chief of staff for policy, *disavowed any government role for testing the vaccines*, stating, “Quite honestly, we are not conducting any science whatsoever inside the government to support Operation Warp Speed, none.”(3,4)

So, from the start, the government was completely in charge of the protocols for drug company research, removing the drug approval process from the hands of the FDA and the drug companies; but the “government” itself was doing none of the scientific work. That made a catastrophe inevitable because *no one was authorized to conduct a scientific evaluation of the safety and efficacy of the mRNA platform injections that are causing so much death and destruction—and none has ever been done!*

As we demonstrated in our book, *COVID-19 and the Global Predators: We Are the Prey*, and elsewhere,(5) it was well-known in the scientific community by 2020 that efforts to make vaccines for SARS-CoVs in animal experiments had such deadly results they were too lethal to the animals to ever attempt to test on human beings.

Proving the lethality of the mRNA platform and the “vaccines,” the death toll has been climbing since the opening day of the jabs, now with 20,000 reports to the VAERS reporting system monitored by both the CDC and FDA, with most of the deaths occurring in the first three days of the injection. For reasons I’ve already analyzed, based on scientific research and my forensic research experience, fewer than 1 in 100 serious adverse vaccine reactions are reported. Thus, 20,000 reports of death to VAERS indicate a real death toll of 2,000,000 or more.(6) Not only did they fail to do the preliminary scientific evaluation on humans, but they then also ignored and denied the death toll that continues to grow in the U.S. and around the world.

The Military Masterplan Chart Gets Leaked

In September 2020, the journal STAT published an article by Nicholas Floriko, which displayed a leaked organization in July 2020 elaborate schematic for Operation Warp Speed, further documenting the vast military involvement. The chart divides responsibility for Warp Speed between “HHS” and “Defense.” The print is too small for a legible reproduction in this column but can be easily found at this link.(7) STAT reported:

The labyrinthine chart, dated July 30, shows that roughly 60 military officials — including at least four generals — are involved in the leadership of Operation Warp Speed, many of whom have never worked in health care or vaccine development. Just 29 of the roughly 90 leaders on the chart aren’t employed by the Department of Defense; most of them work for the Department of Health and Human Services and its subagencies.

Confirming the Groundbreaking Work of Sasha Latypova and Katherine Watt

Although we just located this May 2020 DOD Press Release, the role of the DoD in Operation Warp Speed has been under diligent examination for some time by brilliant researchers in the health freedom movement, including Sasha Latypova and Katherine Watt.

Sasha Latypova has recently published her “Summary of Everything and Quick Links, Updated –Year End 2023,” which covers research on the militarization of Warp Speed, including her work as well as Katherine Watt’s.(8)

Katherine Watt recently cut to the heart of the matter in regard to the sham role played by the drug companies:

All FDA activity that appeared to be license-related, pertaining to all biological products manufactured since May 2019, has been fraudulent, performative, charade, pretextual, and any other word or phrase that means not real, not substantive, not legally relevant.(9)

Implications for Robert Malone’s Role

Among the Deep State organizations described in the DoD press release as collaborators was “NIH’s ACTIV partnership for vaccine and therapeutic development.” ACTIV is essentially a Great Reset Center in the federal government for these collaborations between government and outside sources of wealth of power. Representatives on NIH ACTIV include The Gates Foundation, many top drug companies, and key government agencies.

In a sworn statement for a legal case dated October 21, 2021, Robert Malone, MD declared himself an “active member of NIH ACTIV” (p. 4) and further listed his participation in “Accelerated COVID-19 Therapeutic Interventions and Vaccines: ACTIV Therapeutics Clinical Working Group, NIH. Invited Participant. June, 2020-present” (p. 16).(10)

We were the first to make public Dr. Malone’s participation in NIH ACTIV, and more recently Dr. Malone has declared he is no longer a member. It seems probable that his role on ACTIV made him aware from early on that Operation Warp Speed was, in fact, a DoD operation and the drug companies had a sham role, but we are not aware of his bringing that information to the health freedom movement when he arrived.

As documented in his same sworn statement dated October 21, 2021, Malone also has a long and very active business and professional involvement with the Department of Defense, including managing large contracts and sitting on important committees at DoD and DTRA, The Defense Threat Reduction Agency, a defense and a combat support agency within DoD. Malone also denies any more recent or current involvements with DoD and DTRA.

Our earlier disclosures about Malone’s background were among his reasons for bringing a \$25 million defamation lawsuit against us and against Dr. Jane Ruby, on whose show I discussed related issues. The judge has recently dismissed Malone’s defamation suit against all of us. The judge has also warned Malone that he might declare his lawsuit “frivolous,” and he has ordered Malone to explain why he should not be forced to pay the legal expenses of the Breggins and Dr. Ruby.(11)

Overall Implications of DoD Running WARP Speed

The implications of the DoD’s role in Operation WARP Speed are complex and require continuing unraveling. But these investigations may not substantially change the big picture because the ultimate villains are higher up the totalitarian totem pole and remain the same: the international governance being imposed upon the world by the global predators, including many multi-billionaires and the institutions they have captured from the UN and the World Health Organization (WHO) to the global banking system and the military-industrial complex—all of which we thoroughly document in our book, *COVID-19 and the Global Predators: We Are the Prey*.
